GRAND NEW ROSE

“Liberty”

(Illustrated on first page of cover.)

Undoubtedly the finest crimson Rose of recent introduction and a grand addition to the Hybrid Tea class. This Rose is in its infancy yet, not a year before the public, and we have not been able to prove its qualities, but our experience with new Roses gives us the impression that this Rose is fully up to the introducers' description which we give you. Its color is a warm, rich crimson scarlet and surpasses its rival, the well known Meteor, which is the nearest Rose to its color. An inspection of the growing plants satisfies us as to the vigor and vitality of "Liberty." It has every evidence, too, of being a continuous bloomer. In habit the plant is erect growing, making good wood of considerable length and rigidity, and displaying a strong inclination to make a compact bush. The foliage is of moderate size, with seven roundish leaflets, very shapely and evenly serrate on the margins. We unhesitatingly predict a great future for "Liberty," as it has been thoroughly tested by the introducers, who are among the most expert and accomplished growers in the country. We offer this fine Rose in young plants, 50 cents each; large plants, \$1.00 each.

THE

\$30,000 CARNATION

Mrs. Thomas Lawson.

This famous and much advertised Carnation was bought from the introducer, Mr. Fisher, by Mr. Thomas W. Lawson, who paid \$30,000 for the stock of this variety. It has created quite a sensation on account of its wonderful size and beautiful color—a deep cerese pink approaching very near to a brilliant carmine. The habit is strong, free growing, very vigorous, producing flowers averaging over three inches in diameter. It is an early bloomer and very free. This Carnation has taken first prize in Boston, New York, Philadelphia and Chicago in all the competitive Carnation exhibitions.

TO OUR

Friends and Patrons:

WE PRESENT with pleasure our New Illustrated Catalogue for 1901, in which we have listed everything we have to offer from a large and well-grown stock. Our establishment is thoroughly equipped in every respect; our facilities for handling mail and express orders are of the best. Our entire business is under the direct personal supervision of the proprietors, and in case of mistakes in filling orders, we will, upon prompt notification, rectify same. Kindly keep a copy of your order to compare with plants received.

Plants by Express. We always recommend having plants sent by express, where there are many ordered, and when there is an express office near, as we can usually send much larger plants, and do not have to wash the soil off the roots, as is the case when sent by mail. When the weather is sufficiently warm we pack all express orders in light, strong baskets (which we furnish free), having the tops exposed. Plants packed in this manner will carry nicely for a great distance and keep for a week or ten days in a fresh condition. Purchaser pays charges.

New Low Express Rates. We call attention to the new low express rate, which is a reduction of 20% from the regular merchandise rate at which plants have been expressed heretofore.

Plants by Mail. When plants are ordered by mail we prepay postage, delivering the plants free of all expense to any postoffice in the United States. **Orders amounting to less than 25 cents not accepted.**

Canada Customers. In ordering plants sent to Canada, please send 10 cents extra with each \$1.00 worth ordered, as the postage rate on plants to Canada is double that in the United States.

Our Terms are Cash with the Order. No order sent C. O. D. unless a remittance of one-fourth of the amount of the order be made to guarantee the acceptance.

How to Remit—Postoffice Orders. The safest and most convenient way of transmitting money from one point to another is by means of postoffice orders; if these are lost a duplicate can easily be obtained, and there is no danger of their being stolen, for no one can obtain money on them except the person to whom they are addressed. They can be obtained at most postoffices, but not all. The fee is but 5 cents for \$5.00 and under.

Express Money Orders. If more convenient, money can be sent in this way with perfect safety, as in case the letter is lost a duplicate can be obtained if you are careful to keep your receipt.

Bank Drafts. These should be drawn on New York City, and made payable to the order of McGregor Brothers.

We will be responsible for money sent by any of the above methods.

Loose Money enclosed in a letter is at the risk of the sender.

Individual Checks Cannot be Received in payment for plants; neither can we accept Canada or Mexican silver or paper money.

Postage Stamps. These can be sent for fractional parts of one dollar or where postoffice order cannot be had, provided a two cent stamp extra is sent with every remittance. None but stamps in perfect order will be accepted.

References. If you have any fears that we will not perform what we promise, we refer you to the First National Bank of this city or to the Postmaster.

Address all Letters and make drafts, money orders, etc., payable to

NOTE.—Our customers and friends will notice that since the issue of our last catalogue that this firm has been incorporated. The incorporators, Frank McGregor, Pres.; David McGregor, V.-Pres.; R. McGregor, Secy.; A. McGregor, Treas., and H. McGregor, Mgr. (the originators and sons), are all directly interested in the welfare of the business, and the management of the different departments is under their direct and personal supervision.

The Beautiful White Marechal Niel.

The fame of Marechal Niel, with its large, deep, golden-yellow flowers, is so world-wide that nothing further need be said of this new variety to make it instantly popular than that it is the exact counterpart in every respect of Marechal Niel, its parent, save the color of flower, which is pure white; totally distinct. We have seen Marechal Niel growing to perfection here in the North, surviving the severest Winters, but it is less hardy than the average Climbing Tea or Noisette. In the South it will be grand—just as good as Marechal Niel. If carefully protected in the North, it will also prove itself a magnificent Rose. For house or greenhouse culture it ranks among the first. As a companion plant to Marechal Niel we anticipate a splendid demand for it. Price, 20 cents each; large two-year-old plants, 40 cents.

The Superb Yellow Marechal Niel

A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over; they illustrate the globular form in its last perfection, and are almost massive in dimensions. The reports from Southern growers tell of single plants showing one and two thousand blooms of Marechal Niel at a time. It is almost universally held to be the finest climber for indoors or out, where the climate admits of its cultivation. This is one of the Roses that starts rather slowly, and for that reason the best success will be had with the plants priced 35 cents. Price, nice, well-established plants, 10 cents; large, fine two-year-old plants, 35 cents.

The Wonderful Red Marechal Niel.

For years we have had the much-admired and ever-popular Yellow Marechal Niel, and recently to it was added the White Marechal Niel. But now, to cap the climax, that famous German Rosarian, Peter Lambert, has brought out the Red Marechal Niel, a fitting companion to the other two and completing a most desirable trio. The Red Marechal Niel is the result of a cross between the ever-gorgeous Gen. Jacqueminot and the Yellow Marechal Niel. Flowers are large, well-shaped, full, and of the form of Yellow Marechal Niel in the bud and open flower; color carmine red, shading to pink; fragrance delightful. Very strong grower, though not so rampant as the Yellow Marechal Niel. Price, 20 cents; large two-year-old plants, 40 cents.

SPECIAL OFFER—The Famous trio, the **White, Yellow and Red Marechal Niel**, nice plants, 40c.; fine large two-year-old plants, \$1

WE wish to call special attention to our large AMERICAN BEAUTY. They are strong two-year plants that are bound to give flowers at once.

The Queen of Roses, American Beauty.

This Rose has become as famous as the Marechal Niel. The flowers of this grand Rose are so eagerly sought that they sell in the flower stores of the larger cities during the holiday season at the extravagant price of from \$1.50 to \$2.00 for a single bud or flower. Indeed, the market is never fully supplied with them, even at this high price. Why is this? There must be a reason. It is because of its large size, rich color and delicious fragrance. One of its chief attractions is its elegant foliage (see illustration from photograph, which will show you what long, stiff stems and heavy foliage it can be cut with). It is a hardy Rose, of the largest size, having the ever-blooming qualities of the Tea Rose, with the delicious odor of the Damask, or Moss Rose. It is the sweetest of all Roses. In color it is a deep, brilliant red, shading to a rich carmine-crimson. It is entirely hardy, and is a valuable Rose for the garden or indoor culture, flowering freely during the Winter. American Beauty is like Marechal Niel—difficult to start from small plants; therefore, we advise our customers to buy strong plants of it. This Rose will never be sold cheaply, for the reason it is hard to propagate. It can only be rooted with success during Winter. Our small plants are strong and thrifty. Price, 25 cents each; fine, large two-year-old plants, 50 cents each.

The Beautiful New Hybrid Tea Rose, FERDINAND JAMIN.

A strong, vigorous grower and free bloomer of the Hybrid Tea class. Flowers large, full and globular. Color rosy-carmine, shaded with salmon. The center of the rose is light, while the color graduates and deepens to their very tips, resembling a halo of glory. Price, 15 cents; large two-year-old plants, 40 cents.

The Beautiful New Hybrid Tea Rose, President Carnot.

It is a Rose of the largest size, beautiful both in bud and open flower. The buds come on long, stiff stems, in clusters of from six to twelve. Each individual flower stands out distinct on its stem. No crowding as in the case of so many roses that bloom in clusters. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures five to six inches in diameter. We have no hesitancy in saying that this charming Rose will become as popular as La France, as it has all the good qualities of that Rose, and at the same time is distinct in every feature. It is so handsome and distinct that it attracts immediate attention. It is, indeed, a wonderful Rose, one that everybody can grow and bloom. Price, fine young strong plants, 15 cents; fine two-year-old plants, 40 cents.

The Superb New Tea Rose, ANTOINE RIVOIRE.

(Pernet-Ducher.) A handsome new Rose of vigorous habit of growth, with large, full, Camellia-shaped flowers. Color rosy flesh on a yellow ground, shaded with a border of carmine. Flowers have been exhibited five inches in diameter. A remarkable variety of great worth. Price, 15 cents each; large two-year-old plants, 40 cents.

CLIMBING BRIDESMAID.

New Ever-Blooming Rose,**Climbing Perle Des Jardins.**

Few Roses have as firm a hold in popular favor and are so highly prized by the professional and amateur rose growers alike as the Perle des Jardins. It is not only admirably adapted for forcing, but thrives well in the open air, blooming freely in either case. Its large, full, well-formed, golden-yellow flowers, borne on stiff stems, make this variety especially desirable for bouquets and artistic floral decorations, while the dark and glaucous foliage of the plant furnishes an excellent setting for the fragrant, delicate-hued blossoms. Climbing Perle is even more vigorous and floriferous than the bush form. It is hardy in the South. Price, 15 cents each; two-year-old plants, 30 cents each.

**A Rose Among Roses,
CLIMBING BRIDESMAID**

If there is one Rose more beautiful than another, that Rose is Bridesmaid. It is the standard pink cut-flower Rose of America. It has many rivals, but as yet it holds its own as one of the grandest Roses in commerce. It represents the highest degree of beauty yet attained in Roses of its class. It is distinct in form, distinct in growth and equally distinct in color. When we first offered this new variety as a sport from Bridesmaid, its popularity was assured. We want our customers to try this Rose, more especially those whose Winters are not too severe. It is quite hardy, but where the Winters are very cold and long it should be carefully protected in open ground. It grows rapidly and strongly, and blooms as freely as does its parent, Bridesmaid, which is practically all the time. The flowers are simply beautiful (identical with Bridesmaid), clear dark pink; in bud they are superb, beyond anything we have ever seen. This is one of the most valuable additions to the Climbing Tea Roses made in recent years. Price, 20c; large two-year-old plants, 35c.

**New Climbing Rose, MRS. ROBT. PEARY,
Or Climbing Kaiserin Augusta Victoria.**

This is by all odds the most remarkable new Rose of recent introduction. It is an offspring of that grand variety, Kaiserin Augusta Victoria. The flowers are extra large, full, deep and double. They are of excellent substance, and produced on long, stiff stems, like a forcing Rose. The buds are long and pointed, a remarkable feature not found in any other climbing Rose. The color and shape of the bud and flower are identical with Kaiserin Augusta Victoria. Pure ivory-white. The foliage is also identical. The fragrance is delicious. The most remarkable feature of this variety, however, is that it blooms continuously the first year. It grows to perfection outdoors, throwing up numerous shoots ten to fifteen feet high in a single season. Price, 20 cents; large two-year plants, 35 cents.

**A Glorious New Rose,
Climbing Marie Guillot.**

If you have never seen Marie Guillot growing at its best in the open ground, you cannot conceive of the beauty of its large, bold, handsome white flowers. It has been termed the Queen of White Roses, and while there are many white varieties of unquestionable excellence, there are none more reliable for out-door cultivation than Marie Guillot. It is one of the most rapid-growing and vigorous Climbing Roses we have ever seen, small plants making a growth of 10 to 20 feet in five months. It blooms continuously throughout the season, the first and every year. The flowers are magnificently made, extra large, deep and double. The buds are particularly beautiful and the fragrance delightful. Price, 20 cents; large two-year plants, 35 cents.

**THE GRAND NEW
VELVETY RED ROSE Climbing Meteor.**

All who know "General Jack" will call to mind its beautiful, high colored, rich, velvety-red buds and flowers. Climbing Meteor is the acme of all red Climbing Roses. It is a free, persistent bloomer and will make a growth of from ten to fifteen feet in a season; in bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of Roses for summer blooming, as it will make a strong growth and is literally loaded with its deep, rich red flowers all the time. Its flowers are much larger than Meteor and are richer in color. It is just the Rose to train up the veranda or around windows, where its great beauty will show up to good advantage. Don't fail to plant one or more of Climbing Meteor. Price, 15 cents each; two-year-old plants, 30 cents each.

CLIMBING WOOTON.

THE BEAUTIFUL NEW ROSE,

INCONSTANT BEAUTY.

(See illustration page 2.)

The rose of many colors—from yellow to crimson. This new ever-blooming rose from France is very remarkable in many respects, but the most notable is its ability to change its color. This rose is almost identical with "Child's Jewel," but we believe a much better rose. We have seen bushes of this wonderful variety bearing at the same time coppery-yellow, deep rose, blush pink, mottled yellow and apricot, light and dark crimson roses. These beautiful colors will sometimes be mottled in a single flower. A plant of this beautiful rose, when in full bloom, presents a sight that is at once novel and pleasing. The buds and flowers are large, delightfully fragrant, and, as may be imagined, are exquisitely beautiful. It is a Tea Rose, and is, therefore, a constant bloomer. Its fragrance is delicious, and it being a vigorous grower makes it valuable for garden culture. Price, 15 cents; large two-year-old plants, 35 cents.

TWO UNEQUALED ROSES,**The Bride and Bridesmaid.**

Price, 10 cents each; large two-year-old plants for 25 cents each.

WHITE TEA ROSE, THE BRIDE.

This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. The flowers are very large and double, on long, stiff stems, of fine texture and substance, and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets. During extreme hot weather it becomes a pinkish-white, at other times a beautiful pure white. Price, 10 cents each; large plants, 25 cents each.

NEW TEA ROSE, BRIDESMAID.

Here we have a new rose, a sport from that old stand-by, Catherine Mermet. All know that Catherine Mermet takes precedence as a pink rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the flower dealer than any pink rose. Why? Because the bud is of exquisite shape and contour, so solid and firm, and the stems are so long and stiff that no other rose will compare with it in keeping qualities after being cut. It is about two shades deeper in color—just enough to make it bright; and it is the same color all the time under every condition of weather and surroundings. Price, 10 cents each; large two-year-old plants, 30 cents.

Berlin, Md., May 4, 1900.

McGregor Bros.

I received the Roses May 3rd all right; they were in good condition; very much pleased with them. F. K. T.

**The Superb New Scarlet Rose,
CLIMBING WOOTON.**

This elegant new Climbing Hybrid Tea Rose is one which promises to be a prime favorite wherever introduced. Everything good that can be said of the grand Rose, Souvenir de Wooton, can be said of this Rose, and more, too. The flowers are large and of a beautiful velvety-red color, and the perfume is elegant. Whether open, half open or in bud, the flowers are of fine shape. The flowers are borne at the terminus of long shoots, which render them especially good for cutting, much better, in fact, than the flowers of its parent, Souvenir de Wooton. Price, 15 cents each; two-year-old plants, 30 cts. each.

PRINCESS VENOSA.

A strong grower, producing a long bud, flower large and beautifully formed. Color nankeen-yellow, with shadings of carmine. A most remarkable combination of colors. Price, 15 cents each; large two-year-old, 25 cents each.

PRINCESS BONNIE.

One of the most prolific-blooming Roses we know; the color is a grand, solid crimson, just the shade wanted in the ever-blooming colors. Price, 15 cents each; large two-year-old, 25 cents each.

NEW TEA ROSE, CHARLES LeGRADY.

This splendid Rose has proven one of the most satisfactory for general planting. Magnificent large buds and flowers of great beauty. Color a fine chamois-red, richly shaded with darkest crimson. This rich, unique coloring is one of its marked characteristics, and stamps it with a distinctive charm. The outer petals are grandly recurved, forming an excellent contrast to the Camellia-like inner petals. Price, 10 cents each; large two-year-old plants, 25 cents each.

PINK AND RED LA FRANCE.

New Tea Rose, SNOW FLAKE.

It is a lovely new white Tea—the freest flowering Rose we have ever seen. The Rose was introduced by C. Straus & Co., of Washington, D. C., and by them grown in large quantities for cut flowers, they claiming it the most profitable white Rose they grow; that they had counted one hundred and fifty-three buds and flowers on one plant in a single day, and the plant less than a year old. Nice young plants of this novelty for 10 cents each; large plants, 25 cents each.

A Charming New Tea Rose, GENERAL ROBERT E. LEE.

(Introducer's description.) This is the first Rose that we have introduced, and we are sure that it will please all who try it. It is in color an orange-yellow, after the color of Mad. Capucine, only richer and better. It is a good grower, has elegant long buds, borne on long stems, and will produce more buds than any Rose we know of. It forces easily, being at its best in mid-Winter. There is no variety that will compare with it in all the qualities that go to make up the ideal Rose. The color is so peculiar and rich that it attracts attention wherever seen. Try it. Price, 10 cents each; two-year-old plants, 25 cents each.

SOUV. DE LA MALMAISON.

This grand old variety, when used as a bedding Rose in Summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, are produced in abundance, and have the requisite form and substance to withstand our hot, dry Summers. Price, 10 cents each; large plants, 30 cents each.

FOR EVERY DOLLAR'S WORTH OF PLANTS YOU ORDER AT PRICE PER SINGLE PLANT, YOU MAY SELECT FROM THIS CATALOGUE 20 CENTS' WORTH OF EXTRA PLANTS AS PREMIUMS, EXCEPT ON SPECIAL OFFERS OR COLLECTIONS, TO WHICH THIS OFFER DOES NOT APPLY.

Pink La France.

We have always given this the first place—the Queen of Roses. Accounts come to us from all quarters every year describing the great profusion of its bloom from June until frost, and extolling its fragrance and immense size. It is of superb form, and double as a Rose can be. No variety can surpass it in delicate coloring—silvery-rose shades, with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored and fragrant in the highest degree. Price, 10 cents each; large size, 30 cents each.

The Red La France.

(Or Duchess of Albany.)

We have no hesitancy in saying to our customers that this Rose stands at the head of all Roses, not excepting La France. What we wish to impress is the fact that as a Rose for all purposes it has no peer. It is identical with La France, excepting in three points. Those are: A more vigorous growth, a larger and more expanded flower, and a deep, even pink in color; not shaded, but what is called a solid color. Price, 15 cents; large size, 30 cents.

Striped La France.

(Madame Angelique Veysset.)

Everybody knows the beautiful La France—a Rose that has always had such a ready sale that the demand has never been fully met. Striped La France combines all the good qualities of La France in growth, fragrance, shape of bud and flower; in fact, differs from it only in two points: First, it is freer in bloom than the parent; second, it is nicely striped, the markings being plain and distinct, the variegation a beautiful bright rose on a satin-pink ground. Price, 15 cents; large size, 30 cents each.

White La France.

(Augustine Guinnoiseau.)

Here we have a beauty indeed, one we recommend to all, whether for out-door culture or for pots in the house in Winter. If you were to ask us to select six of the very finest Roses for you, we should be sure to include it in the six. Do you know La France? If so, you know this elegant new Rose. It is identical with La France, except the color. It is pearly-white, sometimes tinted with fawn. We predict for it far more popularity than La France ever attained. Don't fail to get this new Rose. Price, 15 cents; large size, 30 cents.

SPECIAL OFFER:—The four La France Roses for 40 Cents; two-year Size, \$1.00.

**The Fine Pink Tea Rose,
CATHERINE MERMET.**

One of the finest Roses grown. Its name is the synonym for all that is delicate and beautiful. Its buds are inimitable, faultless in form and charming in their every shade of color, from the purest silvery-rose to the exquisite combining of yellow and rose, which illuminates the base of the petals. It is, beyond doubt, the Rose of all Roses, and you should not fail to have a Mermet in your collection. Price, 10 cents each; two-year-old plants, 25 cents each.

PERNET'S TRIUMPH.

The Beautiful New Rose, **Pernet's Triumph.**

The Finest All-Round Crimson Rose to Date.

Originated and sent out by Jean Pernet, one of the most celebrated Rose growers of France, who has already given us some very beautiful Roses, but considers this the triumph of his life (the name translated would read "Triumph of Father Pernet"), and besides his endorsement it has received the commendation of the highest European authorities, and as far as we can judge it is well worthy of them, and promises to be one of the very finest of the Hybrid Tea class. The flowers are extra large, having broad, thick petals and long, tapering buds, with delicious Tea fragrance. Color a fine, clear magenta-red, sometimes passing to a bright crimson. Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time. Price, 15 cents each; two-year-old plants, 30 cents.

Mrs. Robert Garrett.

New Rose.

A magnificent new Rose originated by John Cook. The size is enormous; indeed, the flowers are larger than any Tea Rose we have ever seen, while the form, both in bud and full blown flower, is most artistic and beautiful. The buds are unusually long and pointed; the open flowers full and double. The color is a pleasing soft pink, a little deeper than Daybreak Carnation, totally distinct and unlike anything yet seen in Roses. It is a strong, vigorous grower, producing its flowers on long, stiff stems. We regard this as one of the great new Roses, which will attain instant popularity as soon as its merits become known. Price, 20 cents each; large two-year-old plants, 40 cents each.

Hardy Ever-Blooming Rose, MRS. DE GRAW.

Everyone wants a hardy, ever-blooming Rose, and when our attention was called to this grand variety we at once took steps to procure a stock of it. Following our usual practice, we gave it a thorough trial before offering it, and we are glad to say that it has fully justified the high opinion formed of it when first seen by us. It is with the greatest pleasure, therefore, we announce to our customers that we can confidently recommend it as being entirely hardy, equaling the tender sorts in profusion of bloom. From early Summer until frost it may be depended upon to produce flowers in abundance. In color it is a rich glossy pink, delightfully fragrant, and is such a strong, vigorous grower that it is almost impregnable against attacks of the insects which usually destroy some of our finest Roses; thus it is certain to be unequalled for the garden or cemetery. A Royal Rose. It is a wonderfully prolific blooming variety. Every shoot is loaded with flowers. Price, 15 cents each; two-year-old plants, 30 cents each.

New Tea Rose, MAURICE ROUVIER.

One of the most distinguishing characteristics of this superb new Rose is its enormous size—the flowers are immense; fine globular form, very full and exceedingly sweet; color is bright pinkish rose, elegantly tinted with shades of buff, prettily veined with deep shining crimson, while many of the petals have a wide border of silvery-white, which gives the flower a lighter effect than the color would indicate. It is a good, strong grower and most prolific bloomer, well worthy of high commendation. Price, 10 cents each; large two-year-old plants, 30 cents each.

KAISERIN AUGUSTA VICTORIA.

The Four Hardy Ever-Blooming HERMOSA ROSES.

We offer Four of the Hermosa type of Roses. If you want to have rosebuds to cut all Summer, this set will give you an abundance.

YELLOW HERMOSA, Coquet de Lyon.

This is a most charming yellow Tea Rose, a grand grower, has elegant buds, and is so free in flower as to be called the Yellow Hermosa. This is the best blooming pure yellow Rose in our catalogue. We sold of this Rose the past Spring 35,000 plants. It is a Rose that will please all. Price, 15 cents each; large two-year-old plants, 30 cents each.

CRIMSON HERMOSA, Queen's Scarlet.

This is, without doubt, the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. The flowers are of large size and of a fiery scarlet, a color seldom seen in Roses. Indeed, a bed of this Rose produces a mass of red equal to a bed of Geraniums. It is planted everywhere on account of its color and freedom of bloom. None better. Try it. Price, 15 cents each; large two-year-old plants, 30 cents each.

WHITE HERMOSA, Marie Lambert.

Pure white. It has been called the White Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite as valuable; for, though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots. This Rose is fast becoming popular, as there is no better white Rose. It is the finest blooming white Rose we offer. Price, 15 cents each; large two-year-old plants, 30 cents each.

PINK HERMOSA, The Old Favorite.

Everybody knows this famous variety. As hardy as an oak, and always covered with its elegant clear pink blooms. There is not a shade of color of any kind to mar its purity. We doubt if any Rose ever grown will take its place. Price, 15 cents each; large two-year-old plants, 30 cents each.

SPECIAL OFFER—The four Hermosa Roses for 40c. or the four in large two-year size for \$1.00.

New Tea Rose, KAISERIN AUGUSTA VICTORIA.

This beautiful rose has not only a royal name, but it is a royal rose as well. We have white roses that have elegant buds, but when full blown are not all that is desired. Then again, we have white roses that are elegant when full blown, but have poor buds. This rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open; color pure creamy-white. It far surpasses any other white rose in all particulars, and has a much richer perfume. Price, 15 cents each; large two-year-old plants, 30 cents each.

The Beautiful Yellow Tea Rose, STAR OF LYON.

(*Etoile de Lyon.*)

This magnificent Tea Rose is a rich golden-yellow, a strong, healthy and vigorous grower, immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of the best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold, frequently standing the Winters here uninjured in open ground without protection, and blooming nicely all through the hottest part of the Summer. Price, 15c each; large two-year-old plants, 30c each.

The Best Pure White Tea Rose for Bedding, Marie Guillot.

This beautiful Tea Rose continues in popular favor, and still maintains its position as one of the best white Roses of its class. Flowers of an unusual style, entirely double to the center; very sweet-scented. Habit of growth the best. Price, 10 cents each; large two-year plants, 25 cents each.

Tea Rose, SUNSET.

A grand variety. The flowers are of large size, fine, full form, very double and deliciously perfumed; the color is a remarkable shade of rich golden-amber, elegantly tinged and shaded with dark, ruddy-copper. Intensely beautiful and resembling in color a splendid "Afterglow." It is a constant and profuse bloomer. Price, 15 cents each; large, fine two-year plants, 40 cents each.

New Rose, Henry M. Stanley.

This grand new ever-blooming rose was raised from Madame Lambert and Countess Riza du Parc, and named in honor of the great African explorer and is recommended as a charming variety of unusual beauty and permanent value. The color is a rare shade of amber-rose, delicately tinged with apricot-yellow towards the center. Reverse of petals clear buff-rose. The flowers are of good substance, very large, finely formed, and very full and fragrant. Price, 10 cents each; large two-year-old plants, 25 cents each.

The Beautiful Tea Rose,

No. 4, Madame Welche.

The flowers have great depth and substance, and are of fine substance from their broad, thick petals, and large, finely-serrated buds. The color is a beautiful shade of soft amber-yellow, deepening towards the center to orange or coppery-yellow; definitely ringed and striped with a pale, milky cream. Both flowers and buds are remarkably sweet and fragrant. It is a good, healthy grower, of a compact bushy habit, producing its exquisite buds and flowers in great abundance during the whole growing season. It is hard for the conservatory, and more hardy for open ground planting. Price, 15 cents each.

No. 5, The Pure White Tea Rose, The Queen

A most charming Tea Rose. The offspring of that fine old rose, Souvenir d'Anne, whose many good qualities it seems to possess. The remarkable depth of its pure straw-white, makes it a distinguished beauty. It is quite free, showing the true rose fragrance when fully open. The petals are of a broad, stiff substance, yet very well, very sweet, and has a royal whiteness. This is a fine and open ground plant. We can hardly conceive of anything else as it will be found a valuable acquisition to our list of pure white ever-blooming roses. Price, 15 cents each.

A Select Quintet of Tea Roses.

THE SUPERB RED TEA ROSE,

No. 1, Andre Schwartz.

A magnificent red Tea. It is a strong grower, with fine healthy foliage; the buds are large and long, with thick, broad petals of a dark carmine crimson color, changing to a lighter shade in the open flower. An excellent winter blooming variety, and one of the best for out-door planting, opening up the bowers in beautiful shape. Price, 15 cents.

THE CHARMING NEW YELLOW ROSE,

No. 2, Mosella.

THE YELLOW SOUPERT.

This splendid novelty is almost identical with that of the original Souperf, a cross of the Polyantha and the beautiful Tea Rose, Madame Falcot. It blooms in profuse clusters of three to five flowers, which are very double, clust-shaped and open like a Camellia flower. The petals are tinted white, on beautiful light yellow ground extending to the middle of the petals. The plant is dwarf, bushy and free blooming. Offered for the first time this year. It is sure to be a popular companion to the original Clémilde Souperf. Price, 15 cents each.

No. 3, New Crimson Rose, Princess Sagan.

The flowers of this variety are the richest crimson of any rose in our vase collection; a single bud or blossom will catch the eye at a great distance, so brilliant is the color. Indeed, it is unmatched in its velvety richness, could well be termed "The Velvet Rose." It is as free in blooming as Bon Silene. One of our customers in California writes that she is kept busy by people asking her what rose this is. Price, 15 cents each; large two-year-old plants, 30 cents.

SPECIAL OFFER: This Charming Quintet of Tea Roses for 50c. postpaid. Large two-year plants, \$1.00

"MOSELLA."

THE NEW....

Wichuriana — Roses.

These charming roses are of the same creeping habit as Rosa Wichuriana, trailing over the ground or creeping about the trunks of trees and pillars with delightful effect. They are beautiful for their foliage alone, which is finely cut, thick and leathery, brilliant deep glossy-green, keeping in perfection until midwinter. The flowers are exquisitely beautiful, deliciously fragrant, and borne in the greatest profusion. These roses are of intense hardiness, and succeed in all soils, even on the poorest and driest conceivable.

Manda's Triumph. The gem of the collection and may well be called the Double Memorial Rose. Very large, double flowers, fully two inches across, pure white, finely formed and sweetly fragrant, borne in large clusters.

Pink Roamer. This, in its flower, possesses the characteristics of the Sweet Briar, which is undoubtedly one of its parents, whilst its vigorous growth and handsome luxuriant foliage are those of the Wichuriana type. Its beautiful flowers are single, very large, brilliant rich pink with prominent orange red stamens, and delightfully sweet scented.

South Orange Perfection. A charming little plant growing close to the ground, a free rambler, covered with the greatest profusion of perfectly formed, double flowers, one and one-half inches in diameter, of a lovely, soft blush-pink changing to white, which continues for a long time in perfect condition. It is a perfect gem, both in plant and flower.

Universal Favorite. The strongest grower of them all, producing long, branching shoots and dense green foliage. The blooms, too, are very abundant, of large size, double, of a beautiful rosy-pink, like that of Bridesmaid, and delightfully fragrant. It is a splendid rose for outdoor decoration.

Price, 15 cents each; a set of the four for 50 cents; strong two-year-old plants, set of four for \$1.00.

THE GREAT "SOUPERT" COLLECTION OF ROSES.

Yellow Soupert, or Mosella,

Is another novelty that has been wanted for some years. Who does not know the beautiful Clothilde Soupert, the splendid bedding Rose? Mosella is a stronger grower, flowers are a little larger than the Clothilde Soupert, but appear the same way in clusters and on single stems; the color is chrome yellow in the center, getting creamy white on the edges of the petals; it will make a great bedder and perfectly hardy. Price, 15 cents each; two-year-old plants, 35 cents each.

The Beautiful New Pink Soupert.

This bright new Rose is a very free flowering variety, much resembling Hermosa, but more double and flowering more freely; it shows the Polyantha blood in the full cluster of bloom, and it will make a handsome contrast, bedded or grown with the C. Soupert. The flowers are not quite so large, full and handsome as our original Soupert, but fill a place because of their brightness and freedom. The habit of the plant is almost identical with C. Soupert. Price, 15 cents each; two-year-old plants, 35 cents each.

White Soupert, or Leonie Osterrieth.

We have given this Rose an extended trial, and believe there is no better white Rose grown. The bds are of a good size, the flower full and double, and deliciously fragrant, pure porcelain white, with deep center. In freedom of bloom this charming variety rivals the Polyanthus. Price, 15 cents each; two-year-old plants, 35 cents each.

The Famous Hardy Ever-Bloomer, Clothilde Soupert.

This Rose originated with Messrs. Soupert & Notting, of Luxembourg, Belgium. It is a strong, vigorous grower. The flowers are large, double and beautiful in form, with style of the beautiful Rose "Ball of Snow." The flowers are borne in sprays, and the color blends from a soft shell-pink to a pure satiny-white. Roses with both these colors are borne on the same plant at the same time. No other Rose approaches it in flowering qualities. Price, 10 cents each; large plants, 30 cents each.

SPECIAL OFFER—The Great Soupert Collection for 40 cents; two-year-old plants for \$1.25.

New Tea Rose, Mademoiselle Franciska Kruger.

The striking color of this handsome rose places it at once in the front as a bud producer in the open air. It is closely allied to Catherine Mermet, and resembles it in everything save color. In its shadings of deep coppery-yellow, it stands unique and distinct from all others. The flower, when open, is of good size and very symmetrical. Price, 10 cents each; large plants, 25 cents each.

The Beautiful Memorial Rose, Rosa Wichuriana.

This hardy and lasting rose creeps over the ground like ivy. The leaves are glossy, dark green and handsomely notched. The flowers, which are borne very profusely during July, are large, pure white, single, with yellow center, and have a strong, wild rose fragrance. It is one of the very best plants for rock work, embankments, slopes, cemeteries, etc. Price, 10 cents each; two-year-old plants, 25 cents each.

WHITE MAMAN COCHET.

The Beautiful Yellow Tea Rose,

Pearl of the Garden.

Perle des Jardins. The one Tea Rose which you cannot possibly do without. It has absolutely no weak point, but it is a perfect and popular rose. The color is faultless, whether the waxy petals show the rich cream tint of cool weather, or take richer golden shades which a warmer sun gives them. The form of the bud is rich, rounded and luxuriant. It is only equaled in beauty by the open rose, which is full to the center and large. It is no shy, creeping plant, but is fairly riotous in growth, sending out quantities of beautiful foliage, thick, glossy and dark, every branch being topped with the dark reddish-maroon of the young shoots, and bearing its buds high above the leaves. Price, 15 cents each: large plants, 35 cents each.

The Beautiful New Ever-Blooming,

Maman Cochet.

It is a vigorous grower with beautiful foliage. In bud it resembles the Mermet family, being long and shapely, borne on long, stiff stems. You can get an idea of the exquisite flower from the engraving. It is of the largest size, and, as you will notice, the flower is built up or rounded, and very double. The color is a deep rose-pink, the inner side of the petals being a silver-rose, shading and touched with golden-yellow. We pronounce this the finest rose by far that has been introduced from France in the past five years. Price, 15 cents each; large two-year-old plants, 35 cents each.

The Beautiful New
WHITE TEA ROSE

White Maman Cochet.

The finest rose of the year; like its parent the growth is vigorous with rich, healthy foliage, producing large fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice roses to plant at least one of this beautiful new rose. Price, 15 cents each; two-year-old plants, 30 cents each.

New Ever-Blooming Rose,

GOLDEN GATE.

There are so many beautiful Roses, and they are beautiful in so many different ways, that it scarcely seems possible for any one variety to be the most beautiful of all Roses; and yet if the question were to be decided, we are strongly of the belief that the palm would have to be awarded to the new Tea Rose, Golden Gate. This magnificent Rose is the result of a cross between those old and greatly admired varieties, Safrano and Cornelia Cook, and while combining the good qualities of both, is vastly more beautiful than either. The flowers are extra large, very full and finely formed, and of excellent substance; the buds are long and of the most desirable form; the color is a rich creamy-white, beautifully tinged with fine golden-yellow. The petals are large and broad, and exquisitely bordered and tinted with clear rose, making altogether a Rose of the rarest and most indescribable beauty. Price, 15 cents each; large two-year-old plants, 35 cents.

The Beautiful New Rose,

MAID OF HONOR.

Advertised as Miss Clara Barton. This grand sport from Bridesmaid originated with the Hoffmeisters of Ohio. They say of it: "After rigid tests during the last two years we are able to state: 1st, that its color is a rich, glowing pink, darker than Bridesmaid; 2d, that it is an excellent keeper, and sells over the counter better than Bridesmaid; 3d, that it is a most prolific bloomer, with all perfect buds." Price, 15 cents each; large two-year-old plants, 35 cents each.

MAMAN COCHET.

Princess Alice de Monaco.

A most charming new ever-blooming Rose that must take prominence for Summer bedding, as its habit is perfection, strong, upright growth, with clean, healthy foliage. The flowers are produced in wonderful profusion on long, straight shoots, are deliciously fragrant, large size, double to the center and of fine form, so that perfect flowers may be had during the hottest Summer days. The coloring is exquisite, a creamy-white on the outside of the petals, with a faint rosy-blush on the edges. As the flowers expand they disclose a charming shade of opaline-pink, deepening to rich blush. Price, 15 cents each; large two-year-old plants, 35 cents.

Madame Pernet Ducher.

A good, well-formed bud, quite long and of distinct shape and form. Color a light canary-yellow. The first distinct yellow hybrid Tea. Of strong, good, robust growth. Price, 10 cents each.

Clara Watson.

A free-blooming Tea Rose of English origin with many distinct features. The flowers are very graceful, resembling Bridesmaid in form, and are produced in remarkable profusion. For freedom of bloom this variety is specially valuable. The buds are very beautiful, and are supported on long stems, making it desirable for cutting. The color is salmon-pink, very difficult to describe. Will take a place among the best Roses. Price, 10 cents each; large two-year-old plants, 35 cents each.

White Bougere.

A sport from that famous old variety, Bougere. For open-ground planting it has no superior. The flowers are unusually large, deep, full and double; long, stiff stems, and borne throughout the season in great abundance. The color is a pure, ivory-white. Very beautiful, and a particularly good Rose for general planting. Price, 10 cents each.

Madame Honore Defresne.

A valuable and exceedingly beautiful variety, flowers a clear golden-yellow, very large, full and sweet, buds long and pointed, opens well. First-class in every way. Probably the richest yellow Rose ever grown. Price, 10 cents each; large two-year-old plants, 35 cents each.

Champion of the World.

This is in all-around good qualities the greatest ever-blooming rose in cultivation, especially for winter blooming. It is the champion bloomer. It commences to bloom as soon as potted from the propagating bench, and continues in the greatest profusion all the time, both summer and winter. It is claimed that one plant of it will produce more flowers during the year than ten plants of any Tea Rose. It is always in full bloom. Plants which have bloomed all summer in the garden may be potted in the autumn, and they will immediately start new growth, and bloom profusely all winter in any window. The blossoms are perfectly double to the center, and of the most perfect shape, both in bud and blossom, while its color is a degree of loveliness which few roses can equal, being a rich, deep, rosy-pink, darker and richer than Hermosa, and a shade the delicate richness of which is seldom seen. Its size is very large for an ever-bloomer, often as large and fine as La France or the best Hybrid Perpetual. For winter blooming this rose surpasses all others. It will flourish and bloom profusely where all other sorts fail, and is just what has long been wanted—a fine, free flowering rose for window culture during winter. Price, 15 cents each; large two-year-old plants, 30 cents each.

CHAMPION OF THE WORLD.

For every dollar's worth of plants you order you may select from this Catalogue 20 cents' worth of extra plants as premiums, except on special offers or collections, on which this offer does not apply.

It is particularly valuable because red has been a very scarce color among Tea Roses, and this one seems exceptionally fine. It is a splendid grower, making a large-sized, graceful bush, with bright, deep green foliage; a constant and very free bloomer; the flowers are well-borne upon strong stems, and are unusually large and handsome; the buds are long and finely pointed, and the color a clear, rich maroon, or deep purplish-red, passing to lake, center sometimes streaked with silvery-white; the petals are finely imbricated, and the flowers are deliciously sweet. It is highly recommended as a valuable and in every way desirable rose for general planting. Price, 15 cents each; large two-year-old plants, 40 cents each.

CRIMSON BEDDER.**

This is without doubt the very best of all red roses for bedding. It can be planted anywhere, being entirely hardy. Indeed, it is unmatched in its velvety richness; could well be termed "The Velvet Rose." It is as free in blooming as Bon Silene. One of our customers in California writes that she is kept busy by people asking what Rose this is. Price, 15 cents each; large two-year-old plants, 40 cents each.

*The Famous New Hardy
Climbing Rose,*

Crimson Rambler.

The plant is of a very vigorous growth, making shoots from eight to ten feet during the season, rendering it a charming pillar rose. It is also magnificent in bush form, and for covering buildings, trellises, etc., it cannot be excelled. One of the striking characteristics of this rose is its remarkable color, which is of the brightest crimson, which remains undimmed in the end, showing none of the objectionable purplish tint so common in crimson roses. The flowers are produced in great pyramidal panicles, or trusses, each carrying from thirty to forty blooms, the individual flowers measuring about one to one and a half inches in diameter and remaining perfect on the plant for upwards of two weeks with their freshness of color unimpaired. The foliage is a bright green and glossy, and contrasts finely with the bright crimson of the flowers. It is said to be exceedingly hardy, having successfully withstood the tests in exposed situations of two very severe winters in England. It is hardy in every latitude yet tried as far north as the lakes. As a decorative pot plant it cannot be excelled. Price, 15 cents each, \$1.25 per dozen; large two-year-old plants, 30 cents each.

The New Hardy Yellow Climbing Rose, YELLOW RAMBLER.

The flowers are borne in immense clusters, after the same manner as the Crimson Rambler, often as many as one hundred and fifty blossoms in a bunch, and the trusses have the same handsome pyramidal shape as those of the Crimson Rambler. The color is a decided yellow. Many roses which are described as yellow have really only a creamy tinge, but the Yellow Rambler is clear, decided yellow. The flowers are very sweet scented. The habit of growth is very vigorous, well established plants often making shoots of from eight to ten feet in height in a single season. The plants do not bloom at quite so early an age as the Crimson Rambler, but as soon as well established they more than make up for this by the magnificence of the flowers they produce. Price, 10 cents each; two-year plants, 25 cents.

The Beautiful Hardy Climbing Mary Washington Rose.

This Rose, so widely advertised, is claimed by the introducer to have originated in the garden of George Washington, at Mt. Vernon, over one hundred years ago. It is an everblooming Climbing Rose of vigorous and rapid growth, and makes a profusion of fine buds, which are borne in fine clusters. Pure white, perfectly double, very sweet, and borne in endless numbers all Summer. Price, 10 cents each; large two-year-old plants, 25 cents.

CRIMSON RAMBLER.

Charming New Hardy Climbing Rose, PINK RAMBLER.

(EUPHROSYNE.)

Originated by the same gentleman who produced White Rambler, Mr. Peter Lambert, and is of the same blood. What is said of White Rambler applies equally to this, except the color of the flowers is pure shiny rose—the partially open buds being bright, light carmine, thus producing a strong and pleasing contrast. "The numerous yellow stamens lend an additional charm to the flower. In hardiness, freedom of bloom, form and color of flower and vigorous climbing habit, this variety is fully the equal of Crimson Rambler." Price, 10 cents each; two-year plants, 30 cents.

THE YELLOW RAMBLER.

The Beautiful New White Climber, WHITE RAMBLER.

(THALIA.)

Of German origin, and in habit of growth, foliage, manner of blooming, form of flowers and hardiness it is said to be identical with Crimson Rambler, of which it is a blood relative, but that the flowers are pure snow white and sweetly scented, which the flowers of Crimson Rambler are not. The flowers remain on the bush from three to five weeks; beautiful to behold. Price, 10 cents each; two-year-old plants, 30 cents each.

The Fine New Climber, CLIMBING WHITE PET.

This is an unusually vigorous grower and a wonderfully profuse bloomer. It is remarkable for the rapidity of its growth and freedom of bloom. The flowers are very double and full, of medium size, pure snowy-white, and borne in large clusters continuously throughout the whole season. Price, 15 cents each; large two-year-old plants, 25 cents.

EMPEROR OF CHINA.

A hardy climbing rose of easy growth and pretty foliage. It is claimed by the introducers to be a wonderful bloomer, which is correct for most of the State, while in others it does not bloom so freely, but a very rapid growth. A fine rose, which is sure to please. Price, 10 cents each; large two-year-old, 25 cents.

MD. ABEL CHATENAY.

New Beautiful Tea Rose,**MADEMOISELLE CÉCILE BERTHOD.**

Most beautiful, both in bud and flower, which is deep golden-yellow. In fact, the deepest yellow in color of any rose we grow. The foliage is very bright. This is a rose of magnificent size and color. We grow of this variety alone over fifty thousand, which is an evidence of how we prize it. Altogether a grand rose, and always in bloom. Price, 10 cents each; large two-year-old plants, 25 cents each.

New Tea Rose, GUSTAVE NADAUD.

A free branching grower, with large, double flowers. The outside petals are large and rounded, giving it an exquisite cup shape. Color vermillion, with clear touches of carmine lake and soft pink center. Price, 10 cents each; large plants, 25 cents each.

HELENA CAMBIER.

(Klondike.) This lovely yellow Tea. Ever-blooming Rose will fill a long-felt want from the fact that everybody has been looking and longing for a good yellow Rose that combined vigorous hardiness with rich color and free-blooming qualities. This the new Rose, Klondike, does. It is a new Rose of French origin, destined, we believe, to find a prominent place among the highest grade ever-blooming Roses, both for Summer and Winter blooming. The growth is free and vigorous, very free-blooming, flowers of splendid substance and a delightful shade of deep, rich golden-yellow. In extreme heat comes a deep amber color. The buds are full and firm, lasting a long time when cut. As the flowers expand, the center of the Rose discloses depths of golden-yellow, with light orange tints, while the older petals lessen to lemon-yellow, giving a combination of tints and tones unequalled in their beauty. Without question this is a charming Rose for the garden. Price, 15 cents each; large two-year-old plants, 30 cents each.

THE BURBANK ROSE.**A Hardy Ever-Blooming Rose.**

The flowers are double, of fine form, nearly three inches across. The color is a deep rose-pink, shading to beautiful soft rose at the center. The petals are well incurved so that the center is hidden. In September and October the outer petals change to a deep, rich carmine. The whole flower is most pleasing in its rich, graceful beauty, and is delightfully fragrant. Price, 10 cents each; large two-year-old plants, 30 cents each.

MADAME ABEL CHATENAY,**Forcing Rose.**

This is a wonderfully strong, healthy growing variety, with rich, bright foliage. A grand bedding Rose, as it is a profuse and continuous bloomer. Flowers large and full, petals recurved and of a beautiful creamy-rose, shaded with rose-vermilion and tinged with salmon; the base of the petals is very highly colored, being a combination of the foregoing shades, strongly accentuated. This will undoubtedly make a fine garden Rose, because of its substance and hardiness. The flowers are borne on long stems, so that it is exceedingly well adapted for vases of cut flowers. Price, 10 cents each.

**New Tea Rose,
ENCHANTRESS.**

This is beyond question one of the rest of recent European introductions. We have given it a trial, and find it to be of unusual merit. It blooms with astonishing freedom, bearing its large, globular flowers in immense clusters; it is as free blooming as any Rose in our collection. The color is creamy-white, slightly tinged with buff in the center; vigorous growth; fine foliage and highly valuable both in pots for late Autumn and Winter blooming as well as for general planting in the open ground during Summer. Price, 10 cents each.

HELENA CAMBIER.

MAD. DE WATTEVILLE. (The Tulip Rose.)

The Pretty Tea Rose,**RAINBOW.**

This new rose from California, which no doubt will be extensively planted, was awarded a silver cup by the State Floral Society. The color is a lovely shade of deep coral-pink, striped and mottled in the most unique manner with intense crimson and elegantly colored with rich golden amber at center and base of petals. It makes beautiful buds, and the flowers are extra large, very sweet and of great depth and substance. Price, 10 cents each; large plants, 25 cents each.

The Great Tulip Rose of Europe, the Beautiful**Madame de Watteville.**

This grand new ever-blooming Rose is one of the most beautiful varieties we have ever sent out, and is very largely planted by those who know its beauty. The color is a remarkable shade of creamy yellow-richly covered with rosy blush. The petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. The flowers are large, very full, and highly perfumed. This is the Tulip Rose, so called because of the feathery shading of bright rose around the edge of every petal, the body of the petal being creamy-white and of heavy texture. Price, 10c each; large two-year-old, 30c.

**The Charming Tulip Rose,
Madame Eli Lambert.**

This is a superb, rich, new Rose, carrying such fine combinations of color that it is sure to please. It is so thick in petals as to resemble soft velvet to the touch. It belongs to the Tulip class, salmon-pink, with the center of coppery-rose, elegantly edged darker. We have had many letters from the South praising the great beauty of this Rose, probably the most distinct Rose we grow. The petals are so thick and velvety-like as to hardly resemble a Rose. Price, 15 cents each; large two-year-old plants, 30 cents each.

The Lovely Tulip Rose, J. B. Varrone

There is no question about this being a truly splendid Rose. It has the form, color and substance of those very choice and valuable varieties which only come occasionally. Superb elongated buds and extra large vase-shaped blooms. Color an intensely scarlet-crimson, very rich and bright, beautifully shaded with salmon-yellow or buff-rose at center. McGregor Bros, Sirs:—I want to report about my roses. You sent according to my order the "None-Such" for 50 cents and seven other roses for 50 cents. Every one is growing, and as I am following a rule I made to let only one bud stay on a bush, every few days I pinch from one to four little buds off each one. Eight or ten have bloomed and almost all have buds, and so far each has been true to the description given in your catalogue.

Respectfully, M. M. C., New Orleans, La.

HARDY ROSES---HYBRID PERPETUALS.

When you plant Hybrid Perpetuals you may be quite certain of having Roses every year without further trouble. Though called perpetual, it must be understood that they are not such early and constant bloomers as the Ever-Blooming Roses. The Hybrid Perpetual should not be ordered for house culture, as they are not suitable for that purpose. Do not become impatient if your plantings of these do not bloom the first season. Give them a chance to become established. These Roses are especially suited to plant in all the Northern States and Territories; also in the colder parts of the states of Virginia, West Virginia, Kentucky, Tennessee, North Carolina, Arkansas, Missouri, etc.

THE GOLD MEDAL ROSE, JUBILEE.

The Great Hardy Rose,

DINSMORE.

We quote the introducer's description: "For years we have been looking for a variety which had all the desirable qualities of a bedding Rose—i. e., one which was of good color, fine form, a profuse bloomer, and which would stand the rigor of our Northern Winters without protection; and we can conscientiously say, that until the 'Dinsmore' was produced there was none, to our knowledge, which combined all these qualities. It is a vigorous, healthy Rose, of dwarf, branching habit, and is simply loaded with flowers all Summer long, being even more profuse than most of the tender 'ever-blooming' Roses. The flowers are large, perfectly double, and of a dazzling scarlet-crimson color, and have the rich, spicy fragrance peculiar to the best Hybrid Roses." Price, 20 cents each, large two-year-old plants, 40 cents each.

THE GOLD MEDAL ROSE, JUBILEE.

This grand Rose was awarded the gold medal by the Massachusetts Horticultural Society, the only Rose to obtain that honor. It is the finest dark red hardy garden Rose yet produced. A pure red in its deepest tone, shading to deep crimson-red and velvety maroon-red in the depths of the petals. It fairly glows in its rich warmth of coloring and has a rich velvety finish all its own, containing the darkest color of which Nature is capable. It is a hardy ever-bloomer and an acquisition to any collection of Roses. Offered for the first time. Price, 20 cents each; large two-year-old plants, 40 cents each.

Hardy Rose—GENERAL JACQUEMINOT.

A rich, velvety-crimson, changing to scarlet-crimson. A magnificent Rose, equally beautiful in the bud state or open. This is the best known of all Hybrid Perpetuals, and is without a rival in fragrance and richness of color; as easy of cultivation as many of the more common varieties, and perfectly hardy. Price, 15 cents each; large two-year-old plants, 35 cents.

THE BEAUTIFUL NEW HARDY PERPETUAL BLOOMING ROSE, CAPTAIN CHRISTY.

The flowers are of magnificent form, very double, and stand erect in their martial bearing. Color a fresh, delicate pink, with deeper shading in the center of the flower, the whole flower possessing a bright, satiny appearance. A desirable variety. Certainly the most beautiful of this color we grow. It is a free bloomer. We have only large two-year-old plants to offer. Price, 40 cents each.

DOUBLE GERANIUMS.

SELECTED DOUBLE VARIETIES.

Price, 10 cents each; 10 for 80 cents.

Beaute Poitevine. It is very dwarf and compact, and of a very branching habit. The color is unique and changeable, some trusses being of a deep rosy-salmon, streaked and veined carmine, with deep magenta color; others with the outer petals almost a pearly white, with carmine color.

J. J. Harrison. The enormous truss, the size and beauty of the individual flower, its glowing color, the sturdy habit and magnificent growth, make it rank first of all in bedding Geraniums.

John Doyle. It is a strong, vigorous grower, throwing its truss up well above the foliage of enormous size, and of the richest, brilliant, vermillion-scarlet.

Mad. Jaulin. Without question the finest new semi-double Geranium offered in many years. This is an entirely distinct color in the Bruant or bedding type; very large florets compose a truss of grand size; center of flower very delicate pink bordered with pure white.

J. Ricaud. A very fine, free-flowering, double variety with enormous sized trusses on strong footstalks; flowers purplish-crimson of a very intense shade, center very distinctly marked white, shading beautifully into the other color.

Alphonse Ricard. A strong grower, dwarf and branching and producing flowers in great masses. Both floret and truss are of enormous size, single or slightly doubled, and color a brilliant shade of orange red. M. Bruant recommends this in the highest terms as a bedder.

Colossus. Florets quite circular, semi-double; two and a half inches in diameter; truss also fine. The color is very beautiful, a rich shade of rosy-crimson. Very free in bloom. One of the very largest and finest among the double reds.

Miss Frances E. Willard. It is of vigorous growth, the flower stalks are very long, and the flowers are carried well above the foliage; the color is a delicate blush, shaded with pearl-pink.

La Favorite. A pure, double, white Geranium, as free flowering as the single varieties, and which can be used for planting in beds, for furnishing a supply of beautiful white flowers for vases, etc., or for pot culture for Winter forcing. The flowers are borne in large trusses, of the purest snow white; retains this pure whiteness even in the height of Summer.

Theocrate. Its colorings are simply without an equal—a soft, tender rose, with violet shadings, entirely distinct from any other variety in coloring. Another characteristic of this new Geranium is its heavy, dense foliage, neatly zoned, and stands our hot sun admirably, and for bedding it is without a rival.

STANDARD VARIETIES.

Price, 8 cents each.

President Victor Dubois. Enormous trusses formed of extra large semi-double florets; color the most fashionable shade of rosy-magenta. This shade is entirely new in the Bruant section, and for those who like it it is one of the finest.

Emile de Girardin. Of a deep, soft rose, rather than pink, but fresh and bright; the flowers are perfect in form and borne well and clear above the foliage. It stands the sun perfectly, and is, in our opinion, the finest double variety of any color for massing, when a delicate and artistic effect is desired.

Fire Brand. Color dazzling flame-scarlet; fine, prominent truss; flowers large and of great substance; an excellent bedder and pot plant. For planting in masses we have none to equal it. Another thing in its favor, it takes fewer plants, because of its sturdy, branching habit, to give effect.

Bruant. The Giant among Geraniums. We consider this the best bedding Geranium of all varieties. Color of the flower is a bright vermillion-red of most striking shade. Trusses exceptionally large, and borne in immense spherical balls, often measuring eight inches in diameter.

Chrysanthemums

The Best Varieties.

Mrs. O. P. Bassett. The finest of its color ever offered. It is a sport from the grand variety, Mrs. Henry Robinson, and takes after its parent in all the fine qualities. The color is a fine canary-yellow of a soft texture. It is a large flat incurved variety with broad petals, but petals drooping a little as the flower opens. The dark green foliage, stiff stems, and medium height, make it one of the best cut-flower varieties we have ever grown. It has received several certificates of merit at the Chrysanthemum shows. Price, 15 cents each.

Violatious. A mammoth, extra large, light pink variety of most robust habit and medium size. Not only a fine cut-flower variety, but is unexcelled for pot culture. The flowers are a beautiful shade of light pink, shading to a deeper pink at the end of the petals. The form of the flower is very similar to the old variety, Ivory, only much larger. Do not overlook this variety in making up your collection. Price, 15 cents each.

The Queen. This novelty is undoubtedly the finest white variety up to date. It excels all in purity, extra large in size, of beautiful half globular form with broad incurved, shapely petals of great substance; growth robust, with large, smooth, heavy, deep green foliage; carries flowers erect on stiff stems; a grand show flower, and promises to be a very profitable sort for commercial purposes. Winner of the prize at the Madison Square Flower Show for the best White. Price, 10 cents.

Henry L. Sunderbruch. This variety is only recently being accorded its proper position, which is that of grandest yellow of its own blooming season and the peer of any midseason variety. By a little management it can easily be gotten in by the 25th, and is grand in the extreme. Size, circumference, 16 to 18 inches, form, color, habit, height, vigor—all are perfect. Price, 10 cents.

Marie Louise. A beautiful recurring white, with slender interlacing petals, forming a plump globe. Received Columbian Medal at the Chicago show. Not of enormous size, but of good substance; stems slender and stiff; foliage elegant; plenty of room for this graceful variety, which is a model for cut flowers. Price, 10 cents.

New Chrysanthemum, Fisher's Torch. A fine new Japanese variety. The flowers are of massive size, reflexed, with broad, stiff petals, color deep, rich, velvety-crimson, with no shade of brown or chestnut. Flowers borne on strong, stiff stems. The foliage resembles Cullingford, but it is much heavier and darker. Leaves grow close up to the flowers, which gives the plant an elegant appearance. It is a fine, strong, clear grower. Price, 15 cents each.

MRS. O. P. BASSETT.

President Wm. R. Smith. Color of Daybreak Carnation; a pure self pink; very heavy in substance; on stiff stems; very free in growth and also free in propagation. It opens with a center incurving in a circle enclosed in broad outer petals. It gradually assumes the true Japanese form, rounded and deep, and this gradually changes to the informal reflexed; perfectly double; especially fine for cut flowers and exhibition blooms. Price, 10 cents.

Mrs. Jerome Jones. This is a fancy cut-flower variety which completely captivates us. It is almost of globular form, of the finest silky finish, and destined to become a standard sort for cutting. The outer petals are a delicate lavender, forming a decided band of color; the inner petals are clear lemon. A plant in bloom has a most beautiful, airy appearance. Price, 10 cents each.

Minnie Wanamaker. Pure snow-white, incurved and perfectly double, with a breadth of petal and grandeur of build that is only found in the best varieties. The flowers are exceptionally large, produced on long, stiff stems, with large and handsome foliage. Secured the silver medal at Philadelphia. Price, 10 cents.

Golden Wedding. This is undoubtedly the grandest golden-yellow variety ever introduced, and is the marvel of the period. Nothing can exceed the richness of its color; it is unrivaled in this respect. It is a remarkably vigorous grower and has such strength of stem that it carries its great globular flowers erect, giving it a bold, majestic appearance. The form of Golden Wedding is unique; the outer petals drop downward in picturesque irregularity. The center of the flowers is built high, with broad petals irregularly overlaid, so that, although the flowers are so large, they are not heavy, solid-looking like many others. Price, 15 cents each.

Constitution robust, foliage large and abundant, while the keeping qualities of the flowers are unsurpassed. Without doubt the best seedling of the year. Winner of the Gold Medal and \$100.00. Price, 10 cents.

Glory of Pacific. We predict that this showy variety will rank highly among pink sorts. It is of magnificent size and depth, with broad petals, which finally reflex, showing the clear pink color to excellent advantage. It is of dwarf but vigorous habit; very early, large size. Must become a favorite. Price, 10 cents.

Philadelphia. This most unique and beautiful variety is the wonder of all who saw it; an immense, large Japanese incurved flower, with grooved, pointed petals of great width, reverse ribbed; opening yellow, but changing to white with yellow at the tips. This is its distinctive feature, and a more charming effect can not be conceived. Price, 15 cents.

Gettysburg. This is a deep crimson variety, and excels in its color as Golden Wedding does in yellow. Deep, rich crimson, which in the flower itself is soft and velvet-like. The outer petals are broad and drooping, and have a lustrous sheen in the sunlight. The form is flat, with drooping outer petals, which gives it a very graceful appearance. Price, 10 cents.

Mrs. E. G. Hill. The finest extra early pink, of largest size. Broad, bold, incurving flower of great depth and substance. Color exquisite shade of light pink. A very popular market cut flower. Price, 10 cents.

Golden Trophy. This magnificent new Chrysanthemum was exhibited last Fall, measuring over fifteen inches in diameter. The color is a deep, rich yellow, the half expanded flower incurving. In the fully expanded flower the petals are reflexed, showing a yellow disc. Some idea of the value of the new sort may be formed from the fact that the introducer had the entire stock sold one year in advance. Price, 10 cents.

Ivory. An old variety which has kept its place up to the present day, a splendid white of great substance and durability. Extra dwarf in habit, unsurpassed as a specimen pot plant. Price, 10 cents.

Mrs. John Wescot. A superb variety, strong growth and fine foliage. Flowers of enormous size, of a delicate creamy-pink, shading to ivory-white. The flowers are reflexed and very large, keeping intact for a long time. Price, 10 cents.

Pitcher and Manda. Fine habit, free grower and stout stem, flowers very large, of great substance and lasting quality, center petals canary-yellow, outer five or six rows of pure white. It has proved to be of sturdy habit and excellent foliage, while the flowers are quite distinct in form and unique in color. Price, 10 cents.

MRS. HENRY ROBINSON.

MRS. HENRY ROBINSON.

In the entire Chrysanthemum family there is no grander white variety, no matter when it blooms; it is of the most popular style—immense, incurving, broad-channeled petals of great substance and the purest white—can be used a few days earlier, but it is a sin to cut it until the center petals have begun to develop; from a flat incurved form it gradually changes into a perfect ball of snow, sixteen to eighteen inches in circumference. Winner of twenty-six first prizes. Price, 15 cents each.

VIVIAN MOREL.

A mammoth variety, with long, loosely arranged petals of a most beautiful shade of pink; a strong, sturdy grower, with deep green foliage; contour very distinct from any other in common. Price, 10 cents each.

MARION HENDERSON.

We cut the first flowers on October 10th, days before any other large yellow was ready, and had perfect flowers to cut a month later. The texture of the flower is such that we have never seen it in the least affected by damp, although other varieties alongside of it were badly affected. We have never seen a symptom of any disease on it. Will be invaluable for early cut flowers, and we believe will occupy the same position among early varieties that Golden Wedding does among late ones. Price, 10 cents.

The foliage resembles Cullingfordii, but it is much heavier and darker. They grow close up to the flowers, which gives the plant an elegant appearance. Price, 10 cents.

Price, 15 cents each.

Louis Boehmer. (Pink Ostrich Plume.) The "Louis Boehmer" has the same wonderful hair-like growth or excrecence that appeared for the first time in the white variety, "Mrs. Alpheus Hardy," but it differs from it in color, having a most beautiful shade of lavender-pink, shaded with silvery-pink on the ends of the petals. CARNATIONS for
50 cents.

Mrs. Frances Joost.

This has proved to be one of the most satisfactory and profitable Carnations introduced in years. It is equally as free a bloomer as Wm. Scott, if not freer, and is better than that variety in every other respect—longer and better stem, very much larger flower, and a better color, being a softer shade of pink. It is a strong, vigorous grower, and is generally recognized to be one of the most profitable Carnations. A No. 1 in every respect, and a variety that we can recommend in the highest terms. Price, 15c.

Strong grower, free, early and continual bloomer. Medium sized, high-centered flower, does not burst. Stem long and stiff, and bloom a first-class keeper. The best yellow we have ever grown, and a prize winner wherever shown. Reports from many growers confirm our opinion that it is the most profitable yellow Carnation to date. Price, 10 cents.

White Cloud.

This beautiful white Carnation is remarkable for its extremely vigorous growth, very large flowers, perfect shape, purest white. The best white by far out of a dozen varieties we have of that color. Price, 15 cents.

Brilliant scarlet. An exceptionally bright color in a Carnation. This is not a red, but is like that rich, glowing shade of scarlet so often found among Geraniums. Growth very vigorous and strong. Foliage large, and deep green. Price, 10 cents.

Daybreak.

Delicate salmon-pink; vigorous grower. Color, when at its best, very soft, clear and pleasing. Flower will not stand in full sun, as the color bleaches, and should be shaded when sun is strong. Armazindy.

Flowers are a pure satiny-white, and marked and shaded with rosy-pink, good size, perfect form, never bursts. NEW DOUBLE WHITE PINK,
HER MAJESTY.

New Cannas

America's Most Popular Bedding Plants.

The Canna, with its elegant tropical foliage and its brilliant showy flowers, whether bedded out or grown in tubs, is one of our most ornamental plants and is of very easy culture. The improvements made in the Canna in the last few years in size and diversity of color, places it in advance of all other plants for bedding purposes. In the following page we have the cream of all the late and standard sorts.

ALEMANNIA—Orchid Flowered Canna.

The flowers are truly gigantic in size, the upper petals spreading fully 7 inches, and the form is really semi-double. It produces the largest flowers that have been obtained as yet in the way of a Canna. The outer petals are orange-scarlet, with a very broad, gold-yellow border. The plant grows about five feet high with numerous musa-like glaucous leaves. We consider this variety one of the best of the orchid type. Price, 20 cents each.

New Crimson Flowered Canna, FLAMINGO.

One of the finest solid crimson varieties yet introduced, with large flowers over four inches in diameter, heavy in texture, and of the most refined reflexed form so much sought after, and which is found in very few varieties. They cluster around the stem in an even manner, giving the truss the grace and finish of a Hyacinth spike. Its habit is perfect, strong and compact, growing about three feet high. Price, 20 cents.

MLLE. BERAT, The Pink Canna.

This is a pink variety of French origin. Entirely distinct from any other sort. It is much the darkest of all the pink Cannas, being dark carmine-pink. Heads of bloom are held very erect and well above the foliage. A showy, effective bedder. One of the finest introductions. Price, 20 cents.

The Beautiful New Yellow Canna, ELDORADO.

Without doubt this is the very best yellow Canna now on the market, being of the highest quality in every respect. The flowers are of the largest size, head full and borne well erect above the foliage, while the habit is more dwarf and compact than Madame Crozy. The color is a rich, pure golden-yellow, speckled with a red so light that the general effect, even at a very short distance, is that of a pure golden-yellow. In this we have an ideal yellow Canna, the flowers of full size, and drooping from the spike as soon as faded, leaving the bed always a mass of brilliant color. Price, 15 cents each.

THE "ALEMANNIA SET" OF FOUR
CANNAS FOR 60 CENTS.

ORCHID-FLOWERING CANNAS.

SPECIAL OFFER.—The 5 Orchid Cannas for 75 Cents.

RURBANK.

Toward the inner part the petals show fine crimson spots, all the rest of the flower is of a most beautiful, rich canary-yellow. It resembles the Italian variety, Austria, but produces more flowers. Price, 15 cents each.

ITALIA.

This wonderful Canna has a wealth of graceful foliage and gorgeous flowers. The three upper petals are golden yellow with a large blotch of orange scarlet in center of each, the center and lower petals scarlet, with a narrow edge of golden-yellow. Our illustration can give but a faint idea of its magnificence. Price, 15 cents.

ALEMANIA.

6 feet, green foliage. The Giant of all Cannas. Produces the largest flowers which have been obtained from any Canna. The outer petals are scarlet with a very broad, golden-yellow border. The inside of the bloom is scarlet and dark red. Exceedingly beautiful. Price, 20 cents each.

AMERICA.

Height, about 4½ feet. The beautiful foliage has a dark background, shaded and flamed with green, bronze and purple and shines as if varnished. The spikes are very large and the flowers are enormous, with a yellow throat and petals of glowing red, flamed and streaked with purple—a combination of colors not seen in the Crozy class. Price, 20 cents each.

AUSTRIA.

The new Giant Golden Lily-flowering Canna. The claim of Italia to the title Orchid-flowered is not better than this to Lily-flowered. The plant is remarkable for its sturdy, rank growth, forming massive clumps six to seven feet high, covered from the ground up with large deep green Musa-like foliage, surmounted by tall spikes of golden yellow flowers standing upright like immense lilies. Price, 15 cents.

New Canna, Prest. McKinley.

Pronounced by all the best dwarf crimson bedder introduced. Color a very deep crimson-scarlet, the nearest approach to the color of Alphonse Bouvier, of any Canna we have. It is an early, constant and immensely profuse bloomer. Price, 15 cents each.

Alsace, the White Canna.

A vigorous grower, an early and continuous bloomer. The trusses, upon opening, are of a delicate sulphur yellow, changing very soon, however, to a creamy white without spots. It is decidedly a most desirable Canna for its unique color, and will be indispensable wherever contrast in color for bedding is required. Price, 15 cents each.

SPECIAL OFFER: These 5 "Premier" Cannas for 60 cents, or the "Orchid" and the "Premier" 10 Cannas for \$1.25.

New Scarlet Flowered Canna,

PAPA.

Considered by many the finest red yet introduced; and it certainly is a grand addition to the already gorgeous array of reds. Grows about three feet high, with immense spikes of flowers, the florets being of giant size and of fine form; habit graceful, with heavy light green foliage. Price, 15 cents.

Another new and very scarce French novelty. Green foliage; extra strong grower and free flowering. The flowers stand out from the spikes separately in an effective and attractive way. The color is a beautiful orange with deeper shadings; flowers large and round. Price, 15 cents each.

Charles Henderson.

A glowing crimson color, but of dwarf habit, growing about three feet in height, and bearing its immense compact heads of bloom erect and well above the foliage. The form of the flowers is very fine indeed, well opened and of good substance, standing the sun well. Price, 15 cents each.

Madame Crozy.

The color is a brilliant vermillion-scarlet, bordered with deep golden-yellow; the flowers are borne in great clusters, and in such profusion that they crown the plant with a blaze of glowing color. Price, 10 cents each.

Queen Charlotte.

Our illustration clearly shows the shape and markings of the flowers, which are very large, with broad, rounded petals, slightly recurved; they are borne in immense heads, well above the foliage, and are most striking in color. A bright orange-scarlet, deeply edged with bright canary-yellow. Price, 10 cents each.

BRONZE-LEAVED VARIETIES.

Black Beauty.

A grand novelty. The most striking Canna ever introduced. The flowers are insignificant, but its foliage is superb, being of a deep, bronzy wine-red, almost black. And when foliage effect alone is wanted, or when planted to contrast with the large-flowered varieties, the effect is grand. Very scarce. Price, 25 cents each.

America.

The first red-leaved Canna in the giant flowered class. Height, 4 to 5 feet. Foliage fine glossy bronze, almost as if varnished. Flowers extra large, deep orange flamed and striped with deeper shade; entirely distinct from any other Canna both in foliage and in flower. Price, 20 cents each.

This is the finest and largest of any of the Rex family. It is impossible to describe in words the beautiful markings of this magnificent Begonia. It is a cross between Begonia Diadema and a Rex variety, but retains in a marked degree the Rex character. We consider this the finest of all the Rex family, both in size of leaf and rich coloring. Price, 15 cents each.

Rex Pres. Carnot.

BEGONIA REX,

Or KING OF THE BEGONIAS.

This class of Begonias are grown exclusively for the great beauty of their foliage, which is very large and beautifully variegated a peculiar silvery-metallic gloss. They are used for pot plants or wardian cases. They dislike our dry, bright sunshine, and thrive best in a rather shady, warm and moist situation. NEW BEGONIA, COUNTESS LOUISE ERDODY.

New Rex Begonia.**COUNTESS LOUISE ERDODY.**

The leaf has a metallic luster, dark-silvery in the center; shading to coppery-rose toward the margin. The striking peculiarity which distinguishes it from all other Begonias consists in the fact that the two lobes at the base of the leaf do not grow side by side, but one of them winds in a spiral-like way until in a full grown leaf there are four of these twists lying on top of the leaf nearly two inches high. Price, 20 cents each.

Silver Queen.

The accompanying cut is very accurate as to style, shape of leaf and markings. The leaf is a light apple green with deep olive green veins extending to the edge. Leaves notched and of a medium size. Price, 20 cents each.

BEGONIA M. DE LESSEPS.

A charming variety on the order of Argentea Guttata, the leaf being four times the size seen in that variety, while the silky texture is the same, and it is beautifully spotted with silver. It begins flowering when first planted and continues throughout the whole season until stopped by frost. Foliage rich, glossy-green, often shaded deep bronze. Flowers at first opening are a deep red, changing to a beautiful clear rose in the fully open flower. It thrives everywhere and is destined to become one of the most popular of bedding plants. Price, 10 cents each.

NEW BEGONIA SPECULATA.

Quite a novelty in the Rex type. Leaves are in the form of a grape leaf. Color is a bright green, with a background of chocolate; veins of a light pea-green, the whole leaf spotted with silver. In bloom it is magnificent, the panicles, composed of great numbers of individual pink blooms, are lifted high and spray-like quite clear of the foliage. Price, 15 cents each.

NEW BEGONIA MANICATA AUREA.

One of the most beautiful variegated plants within our knowledge. The plain green Begonia Manicata is a very beautiful variety, clean and glossy, bearing the veil of pink bloom above, but when we find Manicata beautifully blotched with cream color, often pure snow-white, deepening into canary, no other plant that we know carries such bold markings, nor in so pleasing combination of colors. Everyone who sees it admires it the most of any foliage plant we grow. The cut is a correct representation of the plant. Price, 20 cents each.

SEMPERFLORENS GIGANTEA ROSEA.

A fine variety, strong, upright, grows large, flowers of clear cardinal red, which are borne on a strong, thick stem. The leaves are smooth and glossy and attached to the main stem. Price, 15 cents each.

NEW BEGONIA ARGENTEA GUTTATA.

This variety is an introduction of M. Lemoine, and is a cross between Olbia and Alba Picta. This beautiful sort has the silvery blotches of Alba Picta and the grace and beauty of growth of Olbia. It has purple-bronze leaves, oblong in shape, with silver markings, and is in every way a most beautiful Begonia. It produces white flowers in bunches on ends of growth stems. Price, 10 cents each.

NEW BEGONIA, THURSTONI.

This Begonia is a cross between B. Metallica and B. Sanguinea, having the bright red foliage and veining underneath the leaves, and bright metallic green, shading to red, in the younger growth on top, with the deep veinings of the Metallica and smooth glossy leaves and red stems of the Sanguinea; the flowers are a beautiful deep pink in bud, but when expanded become a beautiful shell pink. Price, 10 cents each.

The Beautiful New White Begonia, Purity.

The most attractive of all the white flowering Begonias, being a mass of waxy-white flowers both Summer and Winter. One of the most prolific bloomers in the Begonia family; it is continually covered with rosy-salmon flowers. An excellent variety for out-door bedding, growing and blooming in our hot sun equal to the best bedding Geraniums, being a mass of bloom the whole season, and if lifted and potted before frost, will continue to flower all Winter. Price, 10 cents each; three for 25 cents; 100 for \$5.00, by express.

TUBEROUS ROOTED BEGONIAS.

TUBEROUS ROOTED BEGONIAS.—DOUBLE AND SINGLE.

These are among the very handsomest of our Summer blooming plants, flowering throughout the season. Nothing can exceed the brilliancy of their colors, the delicacy of their tints, the richness of their waxy flowers, the gorgeness of their effect in masses, or their graceful appearance in beds or borders. From the time the first blossom appears until all growth is stopped by frost, they are never out of bloom, and such blooms, great waxy flowers from three to five inches across, borne in such profusion that the rich glossy-green foliage is almost hidden underneath the wealth of blossoms. On the approach of cold weather they should be taken up and the bulbs stored away in a warm place until the Spring, when they may be started in pots before planting in the garden. We have both double and single in five colors, red, white, orange, pink and yellow. Single, 10 cents each; three for 25 cents. Double, 15 cents each; two for 25 cents.

Norfolk Island Pine.

As a decorative plant for the house this is one of the handsomest and most serviceable. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances; its symmetry of form, grace and beauty of foliage are unequalled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. Our importation of these this year was exceptionally large and fine selected stock, especially in the medium size, for which there is always a demand. Price, nice plants, 12 to 15 inches high, 3 tiers, \$1.00 each; larger plants, 18 to 20 inches high, 4 and 5 tiers, \$1.50 each.

ACALYPHA SANDERII.

The Chenille or Comet Plant.

(See illustration.)

Leaves are dark green, from the axil of each of which springs a long, drooping spike of glowing crimson-scarlet flowers, nearly an inch in diameter and from eighteen to twenty-four inches long, very velvety in texture, reminding one of a long piece of brilliant chenille. An exceedingly curious and interesting novelty; unlike any other decorative plant. The accompanying illustration gives a better idea of the formation of this plant than any description that we can give. This plant is never out of bloom. It is bound to have a large sale on account of its oddity and rarity. Price, 15 cents each.

ACALYPHA SANDERII.

ACALYPHA TRICOLOR.

The Pure White Achillea,

“THE PEARL.”

We take much pleasure in calling special attention to this new plant, as it is one of the most beautiful and useful. It is a hardy perennial, the top dying down to the ground every Winter. It commences to bloom early in July, is a perfect mass of beautiful flowers till frost, the same bloom keeping perfect two or three months. Its flowers are pure white, perfectly double and produced in large sprays, making it one of the finest cut flowers for bouquets, vases, baskets, etc., or for any kind of decoration. For cemetery planting it is the most valuable of all flowers, as it is sure to thrive and bear its great profusion of snow-white flowers nearly the whole Summer. Price, 10 cents each; three for 25 cents; twelve for 75 cents.

Their lasting quality, when cut, is remarkable, retaining their freshness for weeks, hence it ranks as the most valuable plant we have for this purpose, surpassing Maiden Hair Fern in grace, fineness of texture and richness of color. It is one of the finest decorative vines recently introduced; by many florists it is used instead of smilax, as easily grown and very much more beautiful on account of its light feathery growth. Price, nice plants, 15 cents each; two for 25 cents; large plants, 25 cents each.

ASPARAGUS SPRENGERI.

When introduced, at a high price, this variety was received with some hesitation as to its desirability, but after only a limited trial it has come forward with such prominence that the supply will be inadequate to the demand for some time to come. Not only is it useful for cutting in sprays for fine cut-flower work, more particularly in connection with large roses, etc., but grown in suspended pots it makes one of the prettiest decorative house plants we know of. Used in decorations, as, for example, in the decorations of mantels, nothing can equal it. It is also a handsome thing for ferneries and hanging baskets. See illustration. BOSTON SWORD FERN.

The Boston Sword Fern. KENTIA FOSTERIANA.

This is one of the finest pot plants imaginable, and the easiest to grow of any of the Palm family. Being almost hardy, it is not injured by slight changes in the temperature, and its stiff, glossy leaves enable it to stand the dry, hot air of the living room without injury. Price, small plants, 25 cents each; larger size, 50 cents and \$1.00 each.

Price, small plants, 25 cents each; a larger size, nice plants, 50 cents and \$1.00 each.

COCOS WEDDELLIANA.

GROWN IN WATER.

The Gorgeous Scarlet Mexican Lily, Sprekelia formosissima.

Any description would be inadequate to give a correct idea of the superb brilliancy of the flowers of this Lily. They are of a dark velvety-scarlet, shading to maroon and having a satiny-white stripe in the center of each petal. In form more graceful than any Lily we know of. They must be seen to get a proper idea of their gorgeous magnificence. Plant the bulbs either in sand and pebbles covered with water, like a Sacred Lily, or in pots filled with good rich soil. If planted in the same manner as the Chinese Sacred Lily, the blooms will appear much sooner, but will not last so long as when planted in earth. Try two or three of these bulbs planted together and a gorgeous display is assured. Price, 15 cents each; two for 25 cents; three for 35 cents.

OUR Improved Lily of the Valley

HOLLYHOCKS.

Few hardy plants combine as many good qualities or lend themselves as readily to varied uses as the Hollyhock. For planting in rows or groups on the lawn or interspersed among shrubbery they are invaluable. The flowers, which are as elegant in shape as a Camellia, form perfect rosettes of the most lovely shades of crimson, yellow, pink, orange, white, etc. They require a deep, rich soil, and will repay in quantity and beauty of bloom any extra care. We offer a fine assortment in separate colors. Price, 10 cents each; three different kinds for 25 cents.

HARDY DOUBLE ENGLISH VIOLET.

This Violet is entirely hardy, perfectly double, a deep violet-purple color and most deliciously fragrant. It surpasses the well-known "Marie Louise" Violet in richness of color, being many shades darker, and far excels it in its delightful odor; this is one of its greatest merits. Will grow and bloom in any garden and in any situation. Nothing is more appropriate for cemetery plots than the hardy Double English Violet. 15 cents each; two for 25 cents.

DIELYTRA SPECTABILIS—BLEEDING HEART.

These pretty Spring bloomers, with their graceful, drooping sprays of heart-shaped pink and white flowers, are very ornamental and bloom freely early in the season. The plants being hardy, increase in size and bloom from year to year, and should have a place in every garden. Price, 20 cents each.

Lily of the Valley.

Too well known to need any special description. Everyone knows their value for outdoor blooming, but all do not realize that their sprays of fairy bells can be obtained in Winter just as easily. We offer strong, imported pips, that have been grown especially for Winter blooming. Plant half a dozen pips in a four-inch pot, keep rather cool until well started, then bring to the light and warmth, and keep freely supplied with water. You will be surprised at the rapidity of their growth and at the size of their lovely fragrant bells. If you wish them for Easter start them in February. We can supply the bulbs all Winter. Price, 5 cents each; 50 cents per dozen.

Dwarf Excelsior Pearl Tuberoses.

The Finest in Existence, All Blooming Bulbs

The Tuberose is noted for its delicate beauty and exquisite fragrance, rivaling orange blossoms in sweetness. The flowers are pure white, very double and wax-like, and are borne on stems two or three feet high. Tuberoses will not bear much cold. Do not plant in the Spring till the ground is warm. They may be started in the house in a warm place, but care should be taken that they get no check in setting out. Plant three or four inches deep in rich ground.

FINE MIXED GLADIOLI.

Our mixed Gladioli embrace a magnificent variety of beautiful colors, all the poorer sorts having been discarded when in flower. We trust that many of our friends will avail themselves of these very low prices to plant largely; the spikes of bloom richness and brilliancy of color are out of all proportion to the trifling cost. Price, extra fine mixed, of all colors, three for 10 cents; 30 cents per dozen, or \$2.00 per hundred, postpaid; by express, \$1.75 per hundred.

HYACINTHUS CANDICANS.

Sanseveria Zealanica.

A New Decorative Plant of Great Value.

There is scarcely a decorative plant listed that is more striking in foliage and habit than this, and certainly none other that stand as much downright neglect and hardship as well as this. Nothing but frost or continual drenching with water has terrors for it. It will grow in a dark hall, a cool bedroom, or stand on the mantel in a heated sitting room. It will stand gas and dust, and will go for months without a drop of water, yet remain as thrifty as ever. Singularly beautiful, as well as easily grown. Erect, rigid, sword-like leaves, in some old specimens reaching a length of from four to six feet. The leaves are thick and fleshy, a dark-green color with clouded bars of white. Price, 15 cents each.

The Beautiful! New Climbing Plant, Manettia Bicolor.

This is the most beautiful and desirable of all vines, as it can be grown either in the house or garden equally as well. In the house it can be trained about a window, forming a wreath of the most brilliant bloom both Summer and Winter. stems six feet high, laden with sheaves of golden blossoms as large as fair Chrysanthemums, and all having an elegant, graceful appearance, without any of the stiffness in habit or blossom peculiar to sunflowers. CLEMATIS PANICULATA.

One of the most beautiful of our hardy-flowering vines. The flowers are pure white, and are borne in great panicles or clusters of bloom, fairly covering the plant, so that it is a mass or sheet of fleecy white. These clusters are borne on long slender stems, which stand out boldly from between the glossy green leaves, and the gentlest breeze causes wavy crests of white to flow gently over their surface. The fragrance is delicious, resembling the English Hawthorn blossoms, and is so subtle and penetrating that a large plant in bloom will fill the air with fragrance. It begins to bloom late in August or early in September, at a time when most other hardy climbers are out of bloom, an inestimable advantage. It is a strong, rapid grower, quickly reaching a height of from fifteen to twenty feet, and spreading out when trained to wires or string, and we can unhesitatingly say that it is, in our opinion, the most valuable among hardy climbing vines. Price, 10 cents each.
